ACTION: Request for Public Comment.

SUMMARY: The Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services (HHS) seeks approval to conduct semi-structured, qualitative interviews with Head Start staff (grantee administrators, managers/coordinators, center directors, teachers, staff), parents, affiliated community providers, and partner Local Education Agency (LEA) staff (administrators, elementary school principals, staff, and kindergarten teachers) at six sites. A comparative case study design will explore varying strategies and approaches to supporting children's transitions from Head Start to kindergarten.

SUPPLEMENTARY INFORMATION:

Description: The proposed case studies intend to study the transition strategies and approaches employed, across various levels, both within and across the Head Start and elementary school systems. The case studies focus on how relationships across systems support coordinated transition practices, which are hypothesized to lead to the most positive outcomes for children, families, and teachers. Qualitative data collection protocols will explore how the supports for and implementation of transition approaches vary amongst Head Start grantees/delegates, Head Start centers, elementary schools, and LEAs within the same communities, including contextual factors that support or hinder meaningful collaboration.

Respondents: Head Start administrators, LEA administrators, Head Start center directors, elementary

school principals, Head Start teachers, kindergarten teachers, elementary school staff, Head Start managers & coordinators, Head Start parents/families (pre- and post-kindergarten transition), Community Service Providers.
